

# Calendar

The purpose of the Calendar strand in The Math Workshop is to get students familiar with the concept of days, weeks, months, and the passage of time. In Level B, students will mainly be reviewing key components of the monthly calendar, such as days of the week and sequencing numbers. Students will also have the opportunity to determine the passage of time in days, weeks, and months.

The Calendar strand relies on a classroom calendar being posted, so the students can follow a model. The student activity sheet remains the same each rotation, with the exception of some the given days phrased in the questions. This is in order to provide students with multiple exposures to the same language about passing of time.

Please see the diagram below for directions and an explanation of how each skill is developed:

- Students fill in current month and its correlating numbers, as well days of the week.
- Students answer questions relating to monthly calendar, including passage of time in days.

Calendar B-1

Name \_\_\_\_\_ Date \_\_\_\_\_

**1** Fill in the calendar then answer the questions below.

**2** Use the calendar above to answer the questions below.

1. What is today's date? (Write below and circle on calendar).  
\_\_\_\_\_
2. How many days are in this month? \_\_\_\_\_
3. How many more days until this Saturday? \_\_\_\_\_
4. Color the third Saturday of this month.
5. What will be the **date** of the last Saturday of this month?  
(ex. August 4, 2004) \_\_\_\_\_

# Calendar Continued

Calendar B-1

★ 6. Two weeks from next Saturday will be what date?  
\_\_\_\_\_

7. Which day of the week will the 3<sup>rd</sup> of next month be?  
\_\_\_\_\_

- Students determine passage of time across weeks and months.

### Reproducible Assessment Guide for Calendar

Copy this page to plan your small group instruction.

<b>Skills in Part 1</b> (highlight the skill being assessed)	Students needing support with these skills: *Consider using <b>Level A</b> materials for students who are competent with these skills	Teaching Strategies:
<ul style="list-style-type: none"> <li>• Write numbers in sequential order using a calendar</li> <li>• Name the 7 days of the week in proper order, starting with Sunday</li> </ul>		
<b>Skills in Part 2</b> (highlight the skill being assessed)	Students needing support with these skills:	Teaching Strategies:
<ul style="list-style-type: none"> <li>• Determine the passage of time using units of <b>days</b> using a calendar.</li> </ul>		
<b>Skills in Challenge</b> (highlight the skill being assessed)	Students proficient with these skills: *Consider using <b>Level C</b> materials for students who are competent with these skills	Teaching Strategies:
<ul style="list-style-type: none"> <li>• Determine the passage of time across <b>months</b> (units of days, weeks, months) using a calendar.</li> </ul>		

## Calendar

Here is an example answer key from calendar. Students are to use the current calendar in the classroom to complete side 1 of the calendar, filling in the name of the month, the days of the week, and dates on the calendar. Below the calendar, students will always be asked the same format of questions, with the day of the week changing each rotation. On the second page for every rotation, students will determine dates in the upcoming month. Since the answers will vary from month to month, the answer key here can be used for every rotation as an example of what to expect.

Calendar 2-1

Name \_\_\_\_\_ Date \_\_\_\_\_

★ Fill in the calendar then answer the questions below.

_____						
<b>Note: Answers May Vary</b>						

★ Use the calendar above to answer the questions below:

1. What is today's date? (Write below and circle on calendar).  
Example: August 15, 2007
2. How many days are in this month? Example: 31
3. How many more days until this Saturday? Example: 3
4. Color the third Saturday of this month.
5. What will be the date of the last Saturday of this month?  
(ex. August 4, 2004) Example: August 25, 2007

**Note: Answers  
May Vary**

Calendar 2-1

★

6. Two weeks from next Saturday will be what date?  
Example: September 7, 2007
7. Which day of the week will the 31<sup>st</sup> of next month be?  
Example: Monday

Name \_\_\_\_\_ Date \_\_\_\_\_

366 days= 1 leap year

\* February has 28 days, but in a leap year it has 29.

\* Remember..."30 days have September, April, June, and November".
